

Charge Controller PWM 10A

Battery Voltage	12V/24V auto
Charge current	10A
Discharge current	10A
Max Solar input	<50V
Buck charge	14.5V
Float charge	13.7V
Discharge stop	10.7V
Discharge reconnect	12.6V
USB Output	5V/2A
Self-consume	<10mA
Control mode	PWM
Operating temperature	-35~+60°C
Size/Weight	150*78*35mm/150g

Features:

- Built-in industrial micro controller.
- Big LCD display, with 5V USB charger.
- PWM charge management.
- Build-in short-circuit protection , open-circuit protection, reverse protection, over-load protection.
- Dual mosfet Reverse current protection, low heat production.
